Has American Politics Betrayed the Middle Class?

Yale University Professor of Political Science

Jacob Hacker

The very rich have gotten a lot richer these past few decades while most Americans haven't. In fact, Wall Street and CEO pay have continued to rise during the current economic crisis, even as the rest of Americans have seen their jobs and paychecks crippled.

Jacob Hacker explains what has happened and why - and how we can rebuild a democracy that serves the interests of the many rather than just those of the wealthy few.
